AegisAI — Enterprise Architecture Overview

Automated AI Security, Governance & Compliance Auditing Platform on Google Cloud

100% Serverless — Cloud Run Infrastructure
Zero Trust — Perimeter & Identity
Model Armor — Real-Time AI Guardrail
Multi-Region nam5 — Sovereign Storage

⚡ The 60-Second Audit Flow

1. **Blueprint Input** — Upload AI architecture
2. **Zero-Trust IAP** — Domain verified gate
3. **Evidence Scan** — Parse configs & GCP
4. **Model Armor** — Block prompt attacks
5. **Gemini Reason** — Score against ISO
6. **Audit Stored** — nam5 DB & alerts

Pillar 1 — Perimeter & Identity

Zero-Trust Access & Quotas

Corporate Google Sign-In
Strict Domain Allowlist · Zero Personal Leaks
Google OAuth 2.0 — Verified in Code ✓

Cloud Identity-Aware Proxy
Zero-Trust Perimeter · Zero Public Backend Access
Cloud IAP Enforced — Verified in Code ✓

Anti-Denial-of-Wallet (DoW)
Built-in 30 Req / 15 Min Rolling Quota & Concurrency
Built-in Serverless Defense — Verified in Code ✓

Secret Manager Credentials
Keyless Container Access · Zero Code Secrets
Keyless Security — Verified in Code ✓

① Authorized Ingress

Pillar 2 — AegisAI Serverless Core

Audit Engine & Posture Scanner

Multi-Framework Audit Engine
Automated Architecture Scoring · ISO 42001 & AISVS
Cloud Run Serverless — Verified in Code ✓

AI-Focused GCP Scanner
Deep AI Workload Audit (Beyond Generic SCC)
Live Environment Audit — Verified in Code ✓

Resilient Model Failover
In-Code Model Router · Automated Retries & Fallbacks
High Availability — Verified in Code ✓

Live Executive Dashboard
Real-Time SSE Streaming · Downloadable Board Packs
Interactive UI & PDF — Verified in Code ✓

② Sanitized AI Call

Pillar 3 — Google Vertex AI

Model Armor & Gemini Multimodal

Google Model Armor Firewall
Real-Time Inline Prompt-Injection & Jailbreak Filter
Sub-15ms Inline Guardrail — Verified in Code ✓

Gemini Multimodal Reasoning
Flagship AI Engine · Supports Any Gemini Version
3.8 Flash / Pro / Any Model — Verified in Code ✓

Keyless Service Account (ADC)
Native Google Cloud Identity · Zero Static API Keys
Ambient ADC — Verified in Code ✓

Zero Customer Data Training
Commercial Vertex AI Terms · 100% Private Tenancy
Enterprise Privacy — Verified in Code ✓

③ Store Evidence

Pillar 4 — Sovereign Storage & Trail

nam5 Multi-Region & Logging

Firestore nam5 Multi-Region
Geo-Redundant US Storage · Encrypted At-Rest & Transit
nam5 Multi-Region — Verified in Code ✓

Tamper-Proof Audit Vault
Immutable Evidence Trail · Verbatim Citations & Plans
Audits Repository — Verified in Code ✓

Active Security Alert Ledger
Live Record of Intercepted Prompt Attacks & Quotas
security_alerts Collection — Verified in Code ✓

Google Cloud Logging Trail
Tamper-Evident Structured JSON Logs · SIEM Exportable
Centralized Audit Log — Verified in Code ✓

Real-Time SSE Result Stream to Dashboard

📜 Audited Regulatory Frameworks

- **ISO/IEC 42001:2023** — AI Management System (Phases 3, 4 & 5)
- **OWASP AISVS v1.0** — AI Security Verification Standard (L1–L3)
- **EU AI Act Ready** — High-Risk AI Governance & Transparency
- **Mexico NOM AI Ready** — Data Sovereignty & Security Alignment

🔐 Enterprise Sovereignty & Privacy

- **100% Serverless** — Scales to zero · Zero idle cost
- **nam5 Multi-Region** — US geo-redundancy · Encrypted
- **Zero Data Training** — Prompts never train base models
- **Keyless IAM Security** — Ambient ADC · Zero static keys
