AegisAI — Enterprise Architecture Overview

Automated AI Security, Governance & Compliance Auditing Platform on Google Cloud

100% Serverless — Cloud Run Compute
Zero Trust — Perimeter & Identity
Model Armor — Real-Time AI Guardrail
Multi-Region nam5 — Sovereign Storage

The 60-Second Audit Flow

1. **Blueprint Input** — Upload AI architecture
2. **Zero-Trust IAP** — Domain verified gate
3. **Evidence Scan** — Engine & GCP scanner
4. **Model Armor** — Block prompt attacks
5. **Gemini Reason** — Score against ISO
6. **Audit Stored** — nam5 DB & alerts

Pillar 1 — Perimeter & Identity

Zero-Trust Google Auth

Cloud IAP & Google Auth

Zero Trust Perimeter — ✓ Verified in Code

Anti-Denial-of-Wallet (DoW)

Anti-DoW Guardrails — ✓ Verified in Code

① Authorized Ingress

Pillar 2 — AegisAI Serverless Core

Multi-Standard Audit Engine

Audit Intelligence Engine

Core Audit Engine — ✓ Verified in Code

AI-Focused GCP Scanner

AI-Specific Posture — ✓ Verified in Code

② Sanitized AI Call

Pillar 3 — Google Vertex AI

Model Armor & Gemini

Google Model Armor Firewall

Active AI Guardrail — ✓ Verified in Code

Gemini Multimodal Reasoning

Enterprise Vertex AI — ✓ Verified in Code

③ Store Evidence

Pillar 4 — Sovereign Storage & Trail

nam5 Multi-Region DB

Firestore nam5 Multi-Region

nam5 Sovereign DB — ✓ Verified in Code

Security Alerts & Audit Vault

Immutable Evidence — ✓ Verified in Code

Real-Time SSE Result Stream to Dashboard

Audited Regulatory Compliance Frameworks

- **ISO/IEC 42001:2023** — Phases 3, 4 & 5 (Design, Eval & Deploy)
- **OWASP AISVS v1.0** — AI Security Verification Standard (L1–L3)
- **EU AI Act Ready** — High-Risk AI Governance & Transparency
- **Mexico NOM AI Ready** — Data Protection & Security Alignment

Google Cloud Enterprise Privacy & Sovereignty

- **100% Serverless** — Scales to zero · Zero idle cost
- **nam5 Multi-Region** — US geo-redundancy · Encrypted
- **Zero Data Training** — Prompts never train base models
- **Keyless IAM Security** — Ambient ADC · Zero static keys
